## APPRECIATION CEREMONY

THIS APPRECIATION CEREMONY WAS A HEARTFELT TRIBUTES TO THE DEDICATION, HARD WORK AND EXCELLENCE DISPLAYED BY SCRIANS.  
CONGRATULATIONS TO ALL AWARDEES!  
YOUR COMMITMENT TO EXCELLENCE INSPIRES US ALL.

## **WORKSHOP ON ARTIFICIAL INTELLIGENCE**

AI is a field of science concerned with building computers and machines that can reason and learn the things. A workshop has been done on various AI tools like chat GPT, Siri, Alexa, Astra and Meta verse for grade 9 to 12 under the guidance of teachers. The resource persons playfully explore selected core concepts of AI. This workshop shows the possibilities of using AI in daily life. Students gain knowledge, skills and insights necessary to implement Artificial Intelligence solutions in current processes.

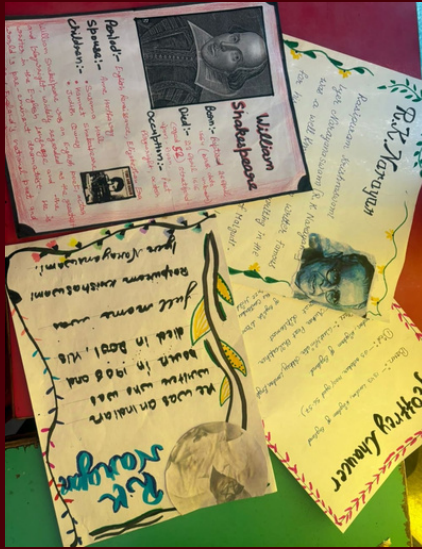

## CHILDREN'S DAY CELEBRATION

## LRC ACTIVITY

Take advantage of every opportunity to practice your communication skills so that when important occasions arise, you will have the gift, the style, the sharpness, the clarity, and the emotions to affect other people.

Being able to communicate effectively is one of the most important life skills to learn. Communication itself is defined as transferring information to produce greater understanding.

The students of grade 7 practiced conversation in groups to sharpen their communication skills.

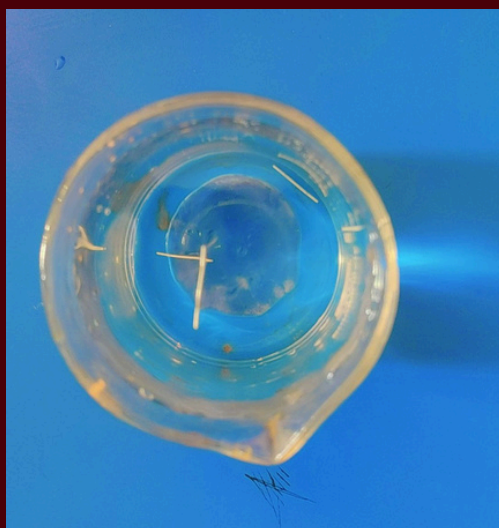

## EXCURSION

Students of Grades 1 and 2 from SCR Public School recently visited the National Zoological Park on an educational excursion to bring their learning to life. During this trip, our young learners had the opportunity to observe and learn about a wide variety of animals in their natural habitats. They explored the park with great enthusiasm, discovering unique facts about different species, from birds to large mammals, and understanding more about the importance of wildlife conservation. This experience not only enhanced their knowledge of animal life but also nurtured a sense of curiosity and respect for the environment.

# HANDS ON ACTIVITY

## **REFRACTION through rectangular glass slab**

Refraction occurs due to change in medium density causing light to bend. This experiment demonstrated the principles of refraction. This phenomenon observed by grade-10 students under school premises.

Self doing clear more concepts and make pupil confident about the topic.

## **SURFACE TENSION**

Activity on the topic surface tension has been done in grade 11 to understand the topic in more effective way. Learners got to know about surface tension it's uses like cleaning, rainproof tent, shape of droplets etc. and the factors which affect it like temperature and impurity added.

Students enjoyed activity and did it by themselves.

# YOUTH PARLIAMENT

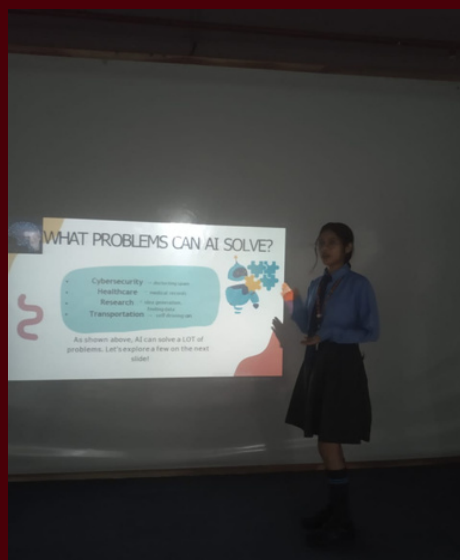

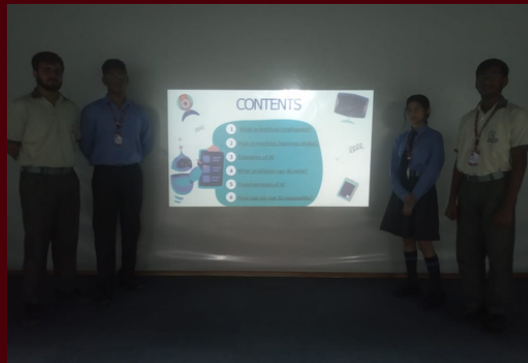

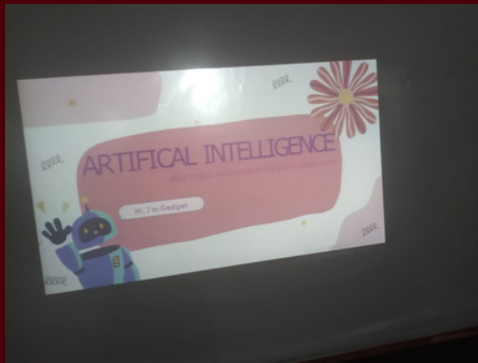

**The most effective way to cope with change is to help create it."**  
Preparing and participating in an MUN helps students develop leadership skills, research, writing, public speaking, and problem-solving skills. Moreover, coming up with solutions that are acceptable to a majority of the representatives also inculcates skills of negotiation, conflict resolution, and cooperation.

**These conferences are an ideal way for you to challenge yourself and improve your professional skills, communication skills, and global acumen.**

**The students of SCR organized an MUN and gave a glimpse of how an international conference is held and its impacts on the global relations.**

# **RESPONSIBLE USE OF AI**

AI is shaping the future of technology and revolutionizing industries.  
A beautiful workshop is organised by grade 12 students for their juniors under the guidance of teachers.

“Success in creating AI would be the biggest event in human history.  
Unfortunately, it might also be the last, unless we learn how to avoid the risks.”

# DEBATE COMPETITION

# SPECAIL ASSEMBLY ON FRUIT LAND

# EDUCATIONAL VISIT TO NORTH CAMPUS UNIVERSITY

**Science Exhibition  
at North Cap University**

*Congratulations*

The students of SCR are the powerhouse of multitudes of innovative ideas. Our brilliant learners have a vision to transform the world for the better and possess the vigour to conceptualize their ideas.

Determined to make a mark, our young innovators of grades 9-12 participated in the Science Exhibition organised at the North Cap University. They emerged as the 3rd position holders at the exhibition, also being awarded ₹1000 as the cash prize.

## **EDUCATIONAL VISIT TO NORTH CAMPUS UNIVERSITY**

**We as an educational community are recognizing the myriad benefits of outdoor education and field trips. We believe that venturing beyond the confines of school walls, helps the students step into a world of experiential learning, where real-world experiences become powerful educational tools.**

**The students of grade 12 of SCR were taken on a field visit to the NorthCap University. The students explored various dynamics of higher education and delved into various options available to them in the same.**

**They also attended a counselling session which would enable them to take a prudent decision.**

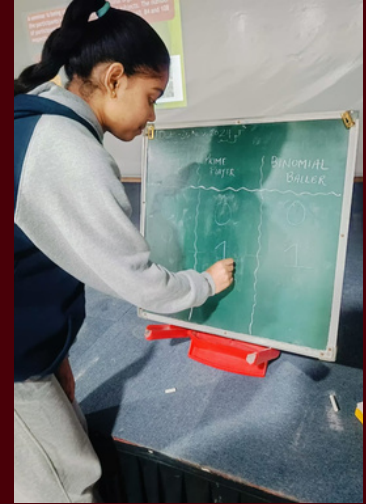

## AWARD CEREMONY

We would like to extend our heartfelt congratulations to the talented students of SCR Public School who have achieved remarkable success in various competitions. Our students have excelled in the Speech Competition, Storytelling Competition, Drawing Competition, Skating Competition, Mock Youth Parliament, and the Painting Competition, where they not only showcased their creativity and skills but also earned cash prizes for their exceptional work. These achievements are a testament to their dedication, hard work, and passion. We are immensely proud of their accomplishments.

# MATHS QUIZ

Pure mathematics is, in its way, the poetry of logical ideas. The Maths quiz was held for grade 10 and 12 and it shows the enthusiasm, learning and problem solving attitude of students. Audience eagerness to learn more about maths is showcased.
